

DR. NINA THOMAS

Junior Software Developer

nina.thomas.dev@gmail.com | 07908 530 256 | github.com/CharmingBeetle | linkedin.com/charmingbeetle | Hove

PROFILE

Always eager to learn something new, I love diving into problems and finding clever solutions. I like taking a hands-on approach -like building my own computer and even started a small photography business from scratch.

My time in healthcare taught me to think analytically and get creative when solving complex problems like treatment planning. I made the decision to sharpen my coding skills at the Northcoders JavaScript bootcamp, focusing on full-stack development.

I'm looking for a junior developer role where I can bring my creative thinking and team spirit to the table. I really enjoy environments that encourage growth and learning. With my varied background, I'm ready to contribute while continuing to develop my skills.

TECHNICAL SKILLS

- **Languages:** JavaScript (Node.js, browser environments), Python
- **Testing:** TDD, Jest, Supertest
- **Back-End:** SQL, PSQL, seeding, AWS
- **Front-End:** HTML, CSS, React, Lighthouse, accessibility tools
- **Hosting:** Netlify/AWS Amplify/EC2/ RDS
- **Other:** Pair Programming, technical communication, SDL, Agile, SCRUM methodologies, LLM/AI (Gemini API), Docker

PROJECTS

StudyBuddAI

TypeScript

- Group project of full-stack AI powered web-application over 10 days with Northcoders
- Tech stack TS/React/Express/MySQL/AWS/Gemini
- Developed test driven [backend](#) with RESTful APIs and hosted with AWS EC2
- Created front-end with use of React with Bootstrap and hosted on AWS Amplify
- Used [Docker](#) to containerize

Thought Bubble

JavaScript

- Solo project of full-stack web-application with Northcoders
- Tech stack JS/HTML/React/Express/PostgreSQL
- Developed test driven [backend](#) with RESTful APIs and hosted with Supabase/Render
- Created accessible interactive front-end with use of React with Bootstrap

Sheffield Treasure Hunt Website

JavaScript

- Delivered an interactive multi-page website using JavaScript, CSS, and HTML
- Solo project completed after a 4-week part-time web development course

Miss Capital

JavaScript

- Built a web app using HTML, CSS, and JavaScript
- Initiated Kanban within the team and took on a leadership role, delegating tasks
- Delivered a live presentation and app demo with the team

Pokémon Top Trumps Game

Python

- Developed a console game incorporating PIPs, APIs, and fundamental coding concepts
- Learned Python basics, including reading/writing to files and importing libraries
- Demonstrated teamwork and Agile-like methodology

PROFESSIONAL DEVELOPMENT

Northcoders | JavaScript

January 2025 - April 2025

- Graduated April 2025
- Software Engineer Bootcamp (Equivalent to Level 3 certification)
- Using pair programming and daily coding katas to learn modern JavaScript software development

Codecademy Java	March 2024
Completed "Learn Java" online course with a certificate (Beginner)	
CFG Challenge C++	September 2024
- Developed code to encrypt a message using Caesar cipher - Detected and researched vulnerabilities (e.g., buffer overflow, integer overflow) in existing code - Corrected vulnerabilities using online resources	
CFG Kickstarter JavaScript	August 2024
Acquired fundamentals of JavaScript, DOM manipulation, HTML, and CSS	
Code First Girls (CFG) Kickstarter Python	June 2023
Learned Python fundamentals while building a small game app as a team	
CFG Massive Open Online Courses	
Topics: C#, Web Development, Data (SQL), iOS Development, Agile, Scrum, Cloud & Deployment, Git, GitHub, Machine Learning, Career Development, Web App Security, DevOps, C++, LLMs & Prompt Engineering	
Replit 100 Days of Code Python	
<i>In progress</i> - Built a character generator using various libraries - Improved user experience with music files and simple visual animations - Smaller programs: Math game, Tip calculator, Rock Paper Scissors, Gradebook builder, Guess the Number, Simple login, Hidden Credit Card number	

EDUCATION

Bachelor of Dental Surgery	2005 - 2010
University of Sheffield	
Bachelor of Science (Hons)	1998 - 2003
- Queen's University, Kingston, ON, Canada - Biology/ Chemistry concentration - Relevant Courses: Differential & Integral Calculus, Intro to Applied Statistical Methods, Intro to Data Analysis & Inference	

WORK EXPERIENCE

Locum Dentist Military Medical Personnel	October 2022 - Present
- Contracted by the Ministry of Defense - Delivered high-quality dentistry to RAF service personnel to ensure deployability - Achieved >80% deployability in approximately 12 months—the highest deployment stat in the UK	
Associate Dentist/Dental Officer NHS	September 2010 - 2022
- Led dental teams and made rapid decisions in high-stress environments - Communicated effectively with patients and staff - Implemented clinical governance frameworks, including clinical auditing	
Photographer & Videographer Freelance	August 2018 - 2022
- Self-taught skills in photography, videography, Photoshop, Premiere Pro, and Lightroom - Managed client bookings and payments using CRM software - Edited and delivered image/video packages within deadlines - Collaborated with vendors for styled shoots - Updated and improved website using basic HTML/CSS	

LANGUAGES

- English: Native
- French: Intermediate
- German: Beginner

INTERESTS/HOBBIES

- Photography: Portraits, lighting techniques, editing. Enjoy the creative process along with delivering something people love
- Videography and Editing: Learned in Photoshop and Premiere Pro
